Professional Summary

Full Stack Developer skilled in building scalable web applications with modern frontend and backend technologies. Experienced in developing responsive UI, REST APIs, and secure authentication systems. Strong knowledge of database management, API integration, and cloud-based deployment. Focused on writing efficient, maintainable code and delivering high-performance applications.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript
Backend: Node.js, Express.js
Application Server: Node.js Runtime
Operating Systems: Microsoft Windows, Linux,
API & Arch : REST APIs, Microservices
Tools & Platforms: Git, GitHub , CI/CD
Authentication & Security: JWT, OAuth 2.0, API Security
Databases: MongoDB
Automation (Trending 🚀): n8n, Workflow Automation, API Automation, Webhooks
Cloud & Deployment: AWS / Vercel / Netlify

Education Qualification

Bachelor's of Computer Science and Engineering (*DR. APJ Abdul Kalam Technical University)*

Certifications

Deloitte Australia Cyber Job Simulation on Forage
Credential: https://drive.google.com/file/d/1P-Ktcu2d5oVrVe848UbhY0al9PaUIgP8/view?usp=drive_link

React Development Bootcamp
Credential: https://drive.google.com/file/d/1JHtbo85ZkFXNzOxvzeiLBrDBjFFcKD4t/view?usp=drive_link

Salesforce Training Program (10/2024)
Credential: https://drive.google.com/file/d/1PL41f_hdCvsRHZHdd1zQ8B_1OCPm9ZvW/view?usp=drive_link

Professional Project Experience

- Worked on a global project at Bitmax, designing and developing a central dashboard with a strong focus on UI/UX, ensuring a responsive and user-friendly interface.
- Built scalable frontend using React.js and developed backend APIs with Node.js and Express.js.
- Implemented automation workflows using n8n, including invoice generation to reduce manual effort.
- Integrated APIs and webhooks for real-time data processing and seamless system communication.

Freelance Project Experience

Hotel Booking Website (Freelancing)

- Developed a responsive hotel booking website with modern UI/UX.
- Implemented features like room listing, booking system, and user authentication.
- Built using React.js, Node.js, Express.js, and MongoDB.

Online Teaching / Learning App (Freelancing)

- Created a web-based learning platform with course management and user dashboard.
- Implemented authentication, video/content access, and user interaction features.
- Integrated backend APIs and database for smooth performance and scalability.

Industry Experience

Bitmax Technology Private Limited (Feb 2026 – Present)

Full Stack Developer

Chatbot & Automation Project (Current Project)

- Developed automation workflows using n8n for business processes.
- Built an automated invoice generation system to reduce manual work.
- Integrated APIs and webhooks for real-time communication between systems.
- Worked on chatbot integration and automation to enhance user interaction and support processes.

Global Dashboard Project

- Designed and developed a centralized dashboard with a strong focus on UI/UX, ensuring a responsive and user-friendly experience.
- Built frontend using React.js and developed backend APIs using Node.js and Express.js.
- Managed MongoDB database for efficient data handling and performance.
- Integrated REST APIs for seamless data flow between frontend and backend.
